

HARSHAL GIRADKAR

Bengaluru, Karnataka | +91-8857043989 | h.giradkar2003@gmail.com | [linkedin.com/in/harshalgiradkar10](https://www.linkedin.com/in/harshalgiradkar10) | <https://github.com/Harshal10k>

PROFESSIONAL SUMMARY

Full-stack developer skilled in the MERN stack and Java Spring Boot, with experience building RESTful APIs, integrating AI capabilities, and working across relational and NoSQL databases. Strong grasp of OOP principles, data structures, and REST API design, with a focus on writing clean, maintainable code. Seeking a software engineering internship/entry-level role to contribute to a collaborative, production-focused team.

EDUCATION

Priyadarshini College of Engineering, Nagpur, India *Dec 2021 - May 2025*

B.Tech, Computer Technology (CGPA: 7.07/10)

TECHNICAL SKILLS

- Languages: Java, JavaScript, SQL, Python
- Frontend: React, HTML, CSS
- Backend: Node.js, Express.js, Spring Boot, REST APIs, FastAPI
- Cloud (AWS): Lambda, S3, RDS (MySQL), EventBridge (Scheduler), Secrets Manager, IAM, VPC (Security Groups, Endpoints), CloudWatch, EC2
- Databases: MongoDB, MySQL, Hibernate, JPA
- Tools & Platforms: Git, GitHub, Linux/Bash Scripting, Postman, VS Code, GitBash

PROJECTS

AI-Driven Resume Screening & Candidate Ranking System [\[github\]](#)

React.js, Node.js, Express.js, MongoDB Atlas, Google Gemini API, Tailwind CSS

- Built a full-stack recruitment platform that automates resume screening for HR teams, eliminating manual shortlisting for bulk applicant pools
- Engineered a Node.js/Express REST API with JWT-based role authentication (employer/candidate), bcrypt password hashing, and route-level RBAC across 15+ protected endpoints
- Integrated Google Gemini API (gemini-3.5-flash-lite) to semantically score resumes 0–100 against job descriptions, extracting matched skills, missing skills, experience, and plain-English explanations per candidate
- Implemented sequential batch processing with 429 rate-limit handling and 3-retry exponential backoff, enabling reliable bulk scoring of up to 20 resumes per upload.
- Built secure file upload pipeline using Multer with UUID filenames, magic bytes validation (file-type), MIME + extension blocking, and 5MB per-file limit — preventing path traversal and script injection attacks.

Inventory & Warehouse Management System [\[github\]](#)

Java, Spring Boot, Spring Data JPA, MySQL, React

- Built a full-stack inventory management system using Spring Boot, Spring Data JPA, MySQL, and React, following a layered architecture with DTO-based API contracts
- Implemented dynamic product filtering via JPA Specifications and a transactional purchase-order workflow that auto-syncs stock on order receipt
- Designed a signed-delta stock adjustment endpoint with negative-stock guards, computed low-stock alerts, and centralized JSON error handling.

CERTIFICATIONS

- **PG Certificate Program (PGCP AC), C-DAC Bangalore** *Feb 2026 Batch*

Leadership & Extracurricular Activities

- **Department of Computer Technology, PCE Nagpur, India - President** *May 2024 - May 2025*
- **Association for Computing Machinery (ACM), PCE Nagpur, India - Member** *May 2024 - May 2025*
- **Google Developers Group, Nagpur, India - Member** *Dec 2023 - Present*

- **Advantage Vidarbha, Nagpur, India - Member of the Core Team** *Dec 2024 - Present*
