

Kunal Prajapati (Full Stack Developer- Java)

Email: Kunalprajapati2621@gmail.com

Phone: +916263389977 / +919630374610

PROFILE SUMMARY

Full Stack Developer with around 1.5+ years of industry experience in building scalable web applications using Java, Spring Boot, React.js, and Node.js. Currently pursuing **PG-DAC from CDAC** to strengthen my understanding of advanced computing concepts and modern development practices. Interested in working on complex engineering-driven systems, with a focus on writing clean code and continuously improving problem-solving skills.

CORE SKILLS

- **Programming Languages:** Java, JavaScript, C++
- **Web Technologies and Frameworks:** Spring Boot, Node.js, React.js, RESTful API's, HTML, CSS, jQuery
- **Databases:** Oracle, MySQL, MongoDB
- **Cloud Technologies:** AWS
- **Technologies & Tools:** Microservices Architecture, Git, GitHub, Postman, Swagger, Jira, VS Code
- **DevOps & Containerization:** Microservices, CI/CD Pipelines, Docker.
- **Operating Systems:** Windows, Linux

WORK EXPERIENCE

Full Stack Developer, NDRIO, Varanasi, Utter Pradesh, Aug 2024-Feb 2026

Job Responsibilities:

- Led the design and development of the organization's web platform, building both frontend and backend systems to support public-facing services.
- Developed and maintained scalable applications using the MERN stack along with WordPress for content-driven modules.
- Built secure and efficient RESTful APIs to handle user registration, program enrollment, and data management workflows.
- Improved backend performance and system scalability through structured architecture and optimized database operations.
- Integrated third-party tools for authentication, email services, and analytics to enhance platform functionality and user engagement.
- Worked closely with designers and academic collaborators to translate business and program requirements into technical solutions.
- Delivered a detailed presentation showcasing key initiatives, including an Innovation Hub developed in collaboration with IIT faculty and industry experts.
- Managed source code and releases using Git and followed Agile practices to ensure timely delivery and continuous improvements.
- Designed reusable components and modular code structures, reducing development time for future features and maintenance efforts.
- Implemented security best practices, including authentication, authorization, and data protection mechanisms, to ensure user data privacy.

INTERNSHIP

Web Developer Intern, Zidio Development, Jun 2024-Aug 2024

Job Responsibilities:

- Designed and developed a full-stack resume builder application, allowing users to create, edit, and download professional resumes.
- Built a responsive and user-friendly frontend using HTML, CSS, and JavaScript to ensure smooth user experience across devices.
- Developed backend services using Node.js, creating API endpoints to handle user input, data processing, and resume generation.
- Used MongoDB to design and manage databases for storing user profiles, resume templates, and session-related data.
- Tested and validated APIs using Postman to ensure reliability, performance, and accurate data handling.
- Collaborated with team members to troubleshoot issues, improve application performance, and enhance usability.

CERTIFICATIONS

- HackerRank Certification – Java
- HackerRank Certification – SQL
- IBM Skills Build Certification in Project Management.
- Awarded Silver Medal on CodeChef for solving 250+ coding problems in Java.

EDUCATION

PG-DAC, Feb 2026 - Present

CDAC, Bangalore, Karnataka.

Bachelor of Technology in Computer Science Engineering with CGPA-8.4, 2020-24

IPS Academy, Indore, Madhya Pradesh.

XII – Science with 74.8%, 2019-20

Imperial Academy, Burhanpur, Madhya Pradesh.

X – General with 86.4%, 2017-18

Asha Niketan Hr. Sec. School, Burhanpur, Madhya Pradesh.
